

# VIVID Coated Fine

Anti-Set-Off Powder, coated – organic

## Product Usage

---

VIVID Coated Fine for paper and light carton from 80 - 300 g/m<sup>2</sup>

## Characteristics

---

- Universal use: for paper and carton , coated: water repellent (hydrophob)
- Particle surfaces are spherical , smooth surface on the printed areas
- No scouring effect on the paper surface , can be used in all spray powder devices
- The ink absorbes the particles , the gloss of the ink remains
- Suitable for varnishing
- Natural/starch base material , can be used in food packaging printing

Recommendation: for use on all multicolour presses and for all jobs

Not recommended before lamination and UV varnishing

## Application

---

Monitor carefully the amount of powdering and reduce to the minimum.

## PACKAGING:

---

1 kg stand-up pouch
