

# VIVID Ultra Gum

Plate Gum for offset plates (Concentrate)

## Product Usage

---

Plate Gum for offset plates for use in plate processors and manual use

## Characteristics

---

- Universal use: for manual and in plate processors
- Very economical: dilution with water up to 1:2
- Good spreading over the plate - efficient protection of the oxide surface
- Easy removable from the plate without residues - good ink receptiveness
- Good pH buffering with soft acidity - fast roll-up of the plate
- Permanent elastic - no peel off from the plate after long storage

## Application

---

For manual use: apply undiluted or add 10-30% of water

For use in plate processors: dilute 1:1 up to 1:2 with water

## Packaging

---

5 Liter can
